**Subject:** Tribal WQS info for you

Hi Brett,

I scheduled our meeting on the LCO nutrient criteria/WQS/TAS discussion for April 22, from 10:30-11:30. I'll reserve a room and conference line here to go until noon if we need the extra time. Our WQS nutrient criteria experts will be on the line (Brian Thompson and Barb Mazur) – and I've also invited David Horak and Barbara Wester in case there are any TAS questions. Please let me know if this date/time works for you and I'll send you a conference line number. Feel free to invite others on your end, if you wish.

Also, you requested a look at LDF and Bad River EPA-approved WQS. They can all be viewed here:

<http://water.epa.gov/scitech/swguidance/standards/wqslibrary/tribes.cfm>

Lastly, I promised I'd send Forest County Potawatomi's draft phosphorus WQS. It's attached in the scanned file.

I'll also try to find out more about other Tribes that might have EPA-approved numeric nutrient criteria. Will keep you posted on what I find out.
